Duration: 6 months

The company – UC RUSAL

UC RUSAL is a leading, global aluminium producer and one of the world’s major producers of alumina. The company was founded in 2000 and, following its merger with SUAL and the alumina assets of Glencore, became the global aluminium industry leader in 2007. The company’s main products are primary aluminium, aluminium alloys, foil and alumina. UC RUSAL is a completely vertically integrated aluminium company with assets right through the production process – from bauxite and nepheline ore mines to aluminium smelters and foil mills. This provides UC RUSAL with exceptional operational flexibility and enables it to control every stage of the manufacturing process and ensure the highest quality of products.

Key Markets

The global demand for aluminium is seeing strong growth, underpinned by the increase of the world population along with a rapid development and urbanization of the developing countries. The global consumption of aluminium is rising by 6.5% per year.
